

DIY Book Cloth with Fusible Web Sheets

Materials

Fabric (100% cotton, linen or thick silk)

Backing paper (thin paper, such as copier or Japanese sketch paper)

Fusible web sheets

Iron & ironing surface

Press cloth/dish towel

Directions

- Assuming your sheet of fusible webbing measures 9" x 12", cut fabric and backing paper to 9.5" x 12.5"
- Peel off plain paper backing from fusible sheet to reveal the adhesive
- Place face down onto the BACK of the fabric
- Smooth with bone folder or credit card
- Remove the grid paper to reveal adhesive
- Lay down the backing paper and cover with dish towel or pressing cloth
- Using an iron set on cotton + steam, press with iron for 20 seconds on each side
- Allow to cool
